

Application Usage and Features

Launching The Application

In order to Launch the decimal Ordering Tool app you must use the decimal Launcher to authenticate and open your desired application.

NOTE: You will need your .decml Direct user Log in.

1. Download and install the decimal Launcher.
2. Log in with your .decml credentials.
3. Find decimal Ordering Tool and download/launch the application.

For further instructions please refer to the [decimal Launcher User Guide](#).

Ordering a Device

Order Information

Placing an Order

Application Settings

The following settings are present within the decimal Ordering Tool settings UI accessed within the View → Settings menu:

General

- **Landing Page**

- Allows the user to specify whether or not to view the application landing page when decimal eRT is opened.

• **UI Theme**

- Set the visual theme of the application (Note: the 'blue' theme is the currently supported theme; a 'dark' theme is available, but is a deprecated theme and not routinely updated at this time).

Application

There are no specific application settings for the decimal Ordering Tool at this time.

Cache

The local disk cache is where calculation results are stored on the client computer.

Users can choose to manually clear the disk cache or let it clear oldest data as the cache fills. Refer to [Data Management Storage and Caching](#) for more information.
