

decimal Direct Release Notes

.decimal decimal Direct is a website application designed to allow .decimal customers to upload, order, and view the progress of their orders during fabrication and delivery of patient specific medical devices for radiation therapy.

This page is intended to provide customers with the release notes for the newest and current version of decimal Direct and to provide an outline of what new features have been added.

decimal Direct 11.9.0

May 25, 2022

What's New

- Site Management (Non-Legacy Accounts Only):
 - Managers can re-send account notification emails to invited users if the original email notification is lost or expired

Fig. 1: Resend Invite

- Managers can force MFA for all users within an entire site. Users will be required to set up MFA the next time they login and will be unable to disable their MFA while this option is toggled on.

Fig. 2: Force MFA

- Adds App Based permissions for the [decimal eRT](#) application. This tab will not be used for sites that do not use the decimal eRT application.

- Adds a new Shipping Estimate Calculator so users can simulate an order and get an estimate when it will ship
- Added notifications and alerts and dynamic News page banner

Bug Fixes

- None

decimal Direct 11.9.1

July 20, 2022

What's New

- Adds alerts for specific apps.
- Adds hyperlink to alerts.
- Adds validation for US and Canada zip-codes.

Bug Fixes

- When redirected to Direct from the launcher, order reports would require logging in again.
