

Shipping Estimate Calculator

The Status page provides a tool for estimating the date upon which a future order will ship. Simply click the “Shipping Estimate Calculator” button on the Status page then:

1. Select a part type from the dropdown
2. Set the date for which the order will be placed
3. Check/uncheck the box indicating what time of day the order will be placed

Note: For existing jobs, the estimate shown in the “**Ship Date**” column will be more accurate.

Shipping Estimate Calculator

NOTE: Estimated ship times account for when parts leave our facility NOT when they will arrive. Please refer to the tracking number for shipping updates.

Device: Cutout Est. Order Date: 2022-05-03

☒ Order will be placed before: 3:00 pm ET
