

.decimal Direct User Guide

Disclaimer: This guide only encompasses the use of the .decimal Direct website. For guidance with other .decimal software please look to the “Help” tab in the Direct website or our [help site](#)

Overview

decimal Direct is a web-based interface used to facilitate ordering and tracking of patient specific devices from .decimal, LLC.

Fig. 1: The .decimal Landing Page

As such, the decimal Direct interface is designed with the customer in mind and provides:

- An internet-based method of ordering patient-specific medical devices for manufacturing by .decimal, LLC.
- The ability to view the real time status of ordered parts as they go through the manufacturing process.
- A direct link to the shipping vendor tracking system allowing the user to track the shipment or parts.
- The ability to download order summary reports for ordered parts.
- Options for managing email order and shipment confirmations.

Video Guides

How do I access decimal Direct?

If you are a returning user and cannot remember your username or password, we recommend first trying to reset your password:

- Open the direct.dotdecimal.com website.
- Click the Login button.
- Enter the email address associated with your account and click Next.
- Once the new authentication screen appears, click the "Forget or reset password?" link and follow the instructions to update your password.

If you do not receive the password reset email or you are a first time user, and have not been assigned a user name and password please contact .decimal's Customer Support staff at 1-800-255-1613 for further assistance.

Ordering Patient Specific Devices

The process for placing an order with a patient's custom files is through the p.d software. On rare occasions, it may be necessary to load .dec files that were created by the p.d software based on a patient's files. This is usually done by .decimal personnel.

If it becomes necessary to upload a patient's .dec files to complete an order, full instructions for uploading the patient's files and placing the order can be found [here](#), along with a list of possible error codes.
