p.d Overview

p.d is a Windows based software that allows customers to import DICOM patients and order .decimal devices for use in planning and delivery of photon, electron, and proton radiation therapy.

Users, access, and permissions for the p.d are managed by the .decimal Direct service.

User Guide

The p.d user guide is available to users within the p.d application. With p.d open, press the F1 key to receive context based help.

Version History Version and release history of p.d 5.4 and later.

Support

For questions, comments, support requests, bug reporting, or to schedule a training session, please contact our customer support team at: appsupport@dotdecimal.com or 1-800-255-1613.
