

Overview

The .decimal astroid Planning App is a cloud based software used for treatment planning of proton radiation therapy treatments. The astroid Planning App is an interactive end user application that leverages the existing .decimal Dosimetry App functions for device creation, dose calculation, and optimization.

Access, permissions, and calculations for the astroid Planning App are managed by the thinknode™ cloud platform service. By using this advanced cloud based technology, the astroid Planning App is able to perform well on any lightweight Windows computer, reducing the hardware and up-front setup costs that are typically associated with owning a radiation treatment planning system.

Note: this product is in the development pre-FDA 510(k) stage.
